SUMMARY

Software Developer with hands-on experience building production-ready web applications using React, Angular, Node.js, Express, and Tailwind CSS. Led frontend development during an industry internship, handling UI architecture, API integration, and responsive implementation. Experienced in role-based systems, authentication flows, and REST-driven MERN applications, with a strong focus on clean, maintainable code.

TECHNICAL SKILLS

Languages: C++, JavaScript, SQL, Java

Developer Tools: VS Code, Postman, GitHub, Git

Technologies/Frameworks: HTML, CSS, Angular, ReactJS, NodeJS, ExpressJS, MongoDB, TailwindCSS, Bootstrap

Coursework: Data Structures & Algorithms, Database Management Systems (DBMS), Object Oriented Programming

Soft Skills: Teamwork, Problem Solving, Adaptability, Time Management

INTERNSHIP EXPERIENCE

Quantumsoft Technologies, Amravati

Feb 2025 – May 2025

Software Intern

Amravati, India

- Led an 8-member frontend team, owning UI architecture, task distribution, and delivery using React.js and Tailwind CSS, converting Figma designs into production-ready, responsive screens.
- Planned sprint tasks, tracked progress, and ensured end-to-end integration with backend REST APIs, delivering a fully functional, cross-device frontend.
- Developed and delivered a secondary frontend project using Angular, implementing modular components, service-based API consumption, and form-driven workflows aligned with backend contracts.
- Worked closely with backend engineers and the project manager on API definitions and delivery timelines; recognized for ownership, code quality, and complete frontend integration.
- Used Git/GitHub for version control and collaborative development, following structured branching and review practices.

PROJECTS

Faqir Chand Bookstore [🔗](#) | MERN Stack

- Built a responsive MERN-based online bookstore, implementing secure authentication, book discovery, search, and end-to-end order workflows using React, Node.js, Express, MongoDB, and Tailwind CSS.
- Designed and implemented role-based access control, enabling User features (browse, order, favorites, order tracking) and Admin features (inventory management, order status updates).
- Integrated RESTful APIs and ensured cross-device responsiveness, following Git/GitHub version control practices for structured and maintainable development.

Expense Management System | MERN Stack

- Built a secure MERN-based expense management system enabling user authentication and real-time tracking of income and expenses using React, Node.js, Express, MongoDB, and Tailwind CSS.
- Implemented CRUD workflows for income and expense records, including data export to Excel for offline analysis and reporting.
- Designed a responsive, performance-optimized UI ensuring consistent functionality across mobile and desktop devices.

EDUCATION

Government College Of Engineering Amravati

Dec 2021 – June 2025

Computer Science and Engineering - Percentage - 75.9%

Amravati, India

Shri Shivaji M.P.H.S. Junior College

June 2018 – Feb 2020

HSC - General Science - Percentage - 81.54%

Amravati, India

Shri Shivaji M.P.H.S. Secondary School

June 2017 – March 2018

SSC - Percentage - 80.40%

Amravati, India

EXTRACURRICULAR

ENGE-NEARS

Mar 2022 – Jan 2024

Head of Data Management Department

Amravati

Prajawalan

Member of Computer Science & Engineering Department Committee
